Perfect Gift

Thank you for installing perfect gift.

Perfect gift will help you not to forget an important date, or how many years it is celebrated, or to give a good gift.

With perfect gift you can quickly have information on birthdays, anniversaries or any special date of all your favorite people.

You can write down all the ideas you have, or that the person suggests directly or indirectly.

You can access the web browser from an idea, and save the pages that interest you, these will be associated with that idea and you can access them whenever you need.

You will have a list with all the gifts you have given to each of your favorite people, so as not to repeat a gift, and in comments you can write down if you liked it or any information that will help you for the next gift.

Tips:

You can create a profile for yourself, to give yourself a nice gift, or to find out who and what they have given you.

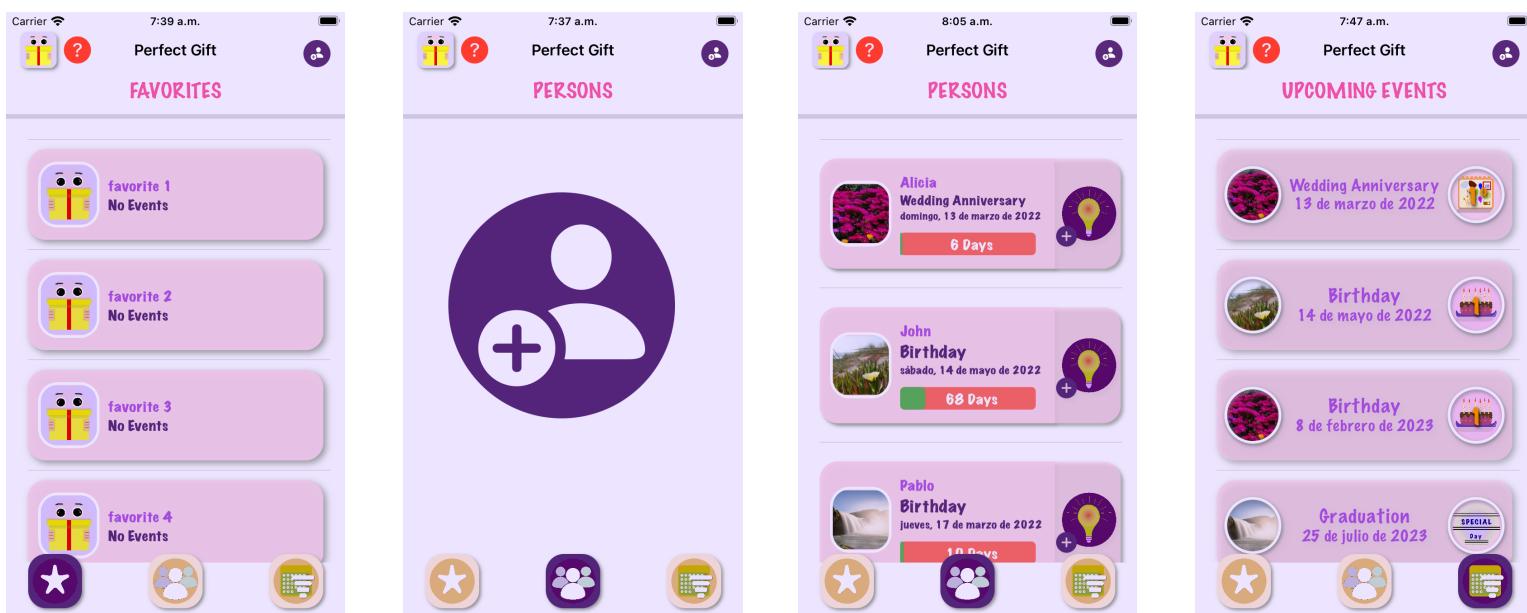

In the gift list you can add gifts that you have received from other people.

Perform your web searches by accessing the browser from each idea, so the pages you save will always be associated with that idea even when it is moved to the gift list.

Also the search will be faster and more efficient.

Home

On the home screen you can see and add your favorite people whom you want to congratulate and give them a gift. You can select up to 6 favorite people so you never miss an important date. The favorite people selected in the favorites list will also be displayed if you add widgets on the device's home screen.

->Favorites icon. Shows the list of the 6 selected people.

-> People icon. Shows the list of favorite people in alphabetical order.

->Add person icon.

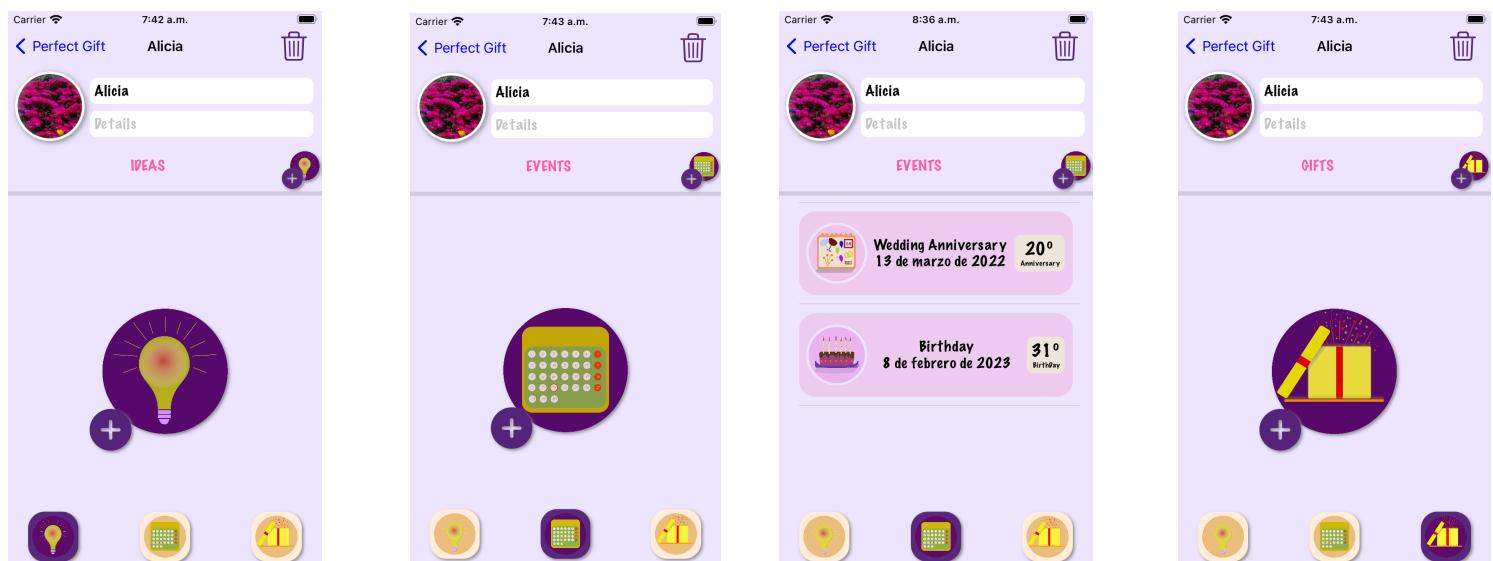

-> Upcoming Events icon. Shows the list of all events of all people sorted by date, with the first being the most close to the current date.

Person Profile

On the person profile screen you can customize the person's name and picture.

You can also add some detail or additional information in Details.

Below the person's data you can see the gift ideas noted, the events related to the person and the gifts that have been given.

-> Ideas icon. Shows the list of ideas noted.

-> Events icon. Shows the list of events related to the person.

-> Gifts icon. Shows the list of gifts you have received.

Ideas

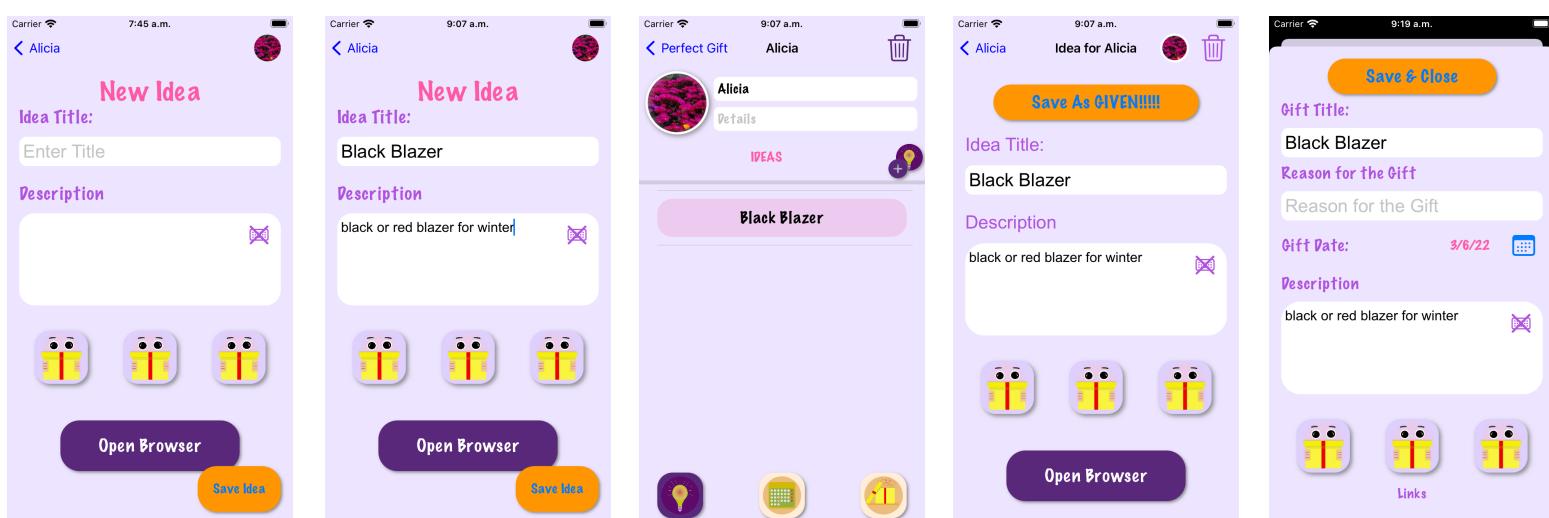

In each person's profile you can write down all the ideas you want so that you never forget and can always make the perfect gift.

In each idea you can add comments, images and links.

Accessing the web browser from the idea screen, all the pages you save will remain assigned to that idea, and you will always have them available.

When an idea has become a gift, all you have to do is “save as a gift” that idea.

When it is saved as a gift, you can add a date and the reason (event) for which the gift was given and it will automatically go to the list of gifts.

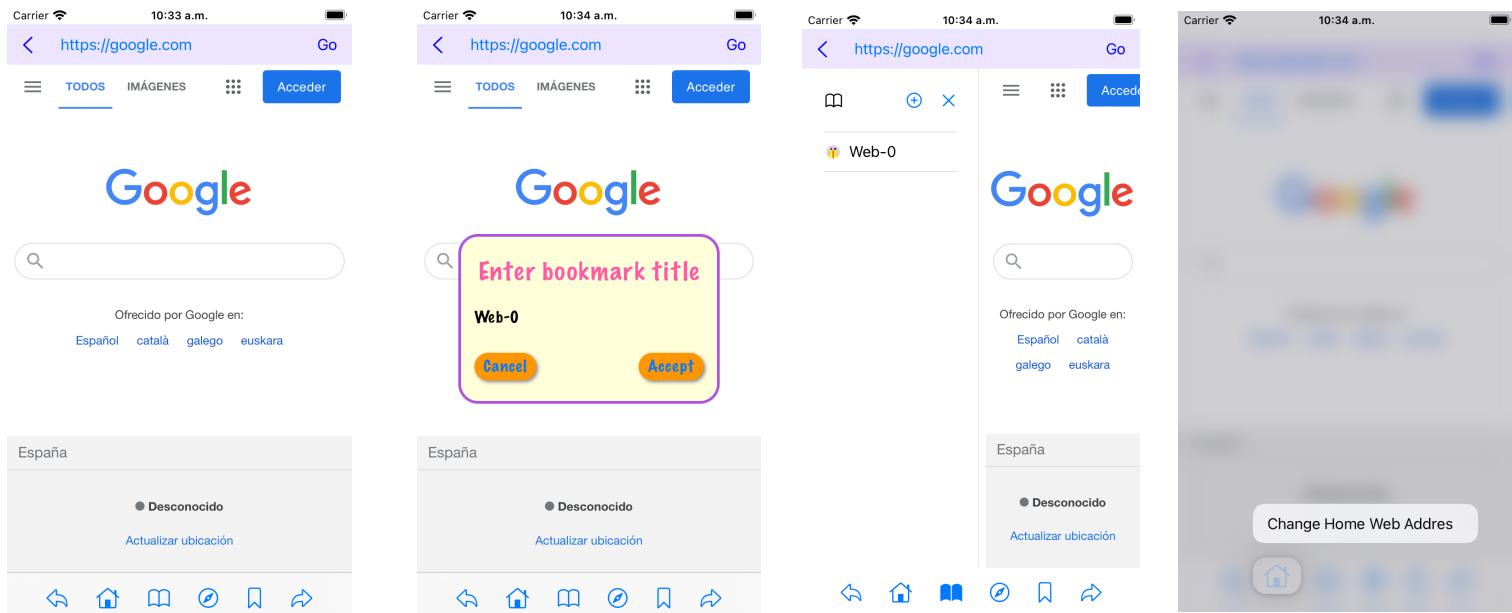

Browser

From each idea you can open the browser to carry out your searches, save the pages that interest you and then access them in a faster and more efficient way.

Each saved page will be associated with the idea from which the browser was opened.

The direction of the Home button can be customized. You can also access a page by entering the web address directly in the navigation bar.

Events

In each person's profile you can add all the events you want, birthdays, anniversaries, weddings, end of course.....

In the events you will find three types:
Birthdays, anniversaries and special days.

-> Birthday icon.

If you add a birthday, you will only have to indicate a title and the date of birth.
And that's it, Perfect Gift will always show you the date of the next birthday,
days left and years old.

-> Anniversary icon.

If you add an anniversary, you will only have to indicate a title and the date of the
event to commemorate (wedding, beginning of a relationship or company...).
And that's it, Perfect Gift will always show you and updated the date of
the next day of the commemoration, the days that are missing and the years that it turns.

-> Special days icon.

If you add a special day, you will only have to indicate a title and the date
of that special day (weddings, end of course, farewell party...)
And that's it, Perfect Gift will always show you and updated the days that are missing.

Gifts

The list of gifts will show the ideas that have become gifts, but you can also add gifts that you have made and were not related to any idea or belong to another person, but you want to remember it so as not to repeat a gift.

In the list of gifts you can see the title that has been given to the gift, the date on which the gift was given and the reason.

The gift list is sorted by date.
